SMART INFRARED THERMOMETER AGU SHE10

AGU App connected

3 in 1: forehead, ear & object measurements

high measurement accuracy

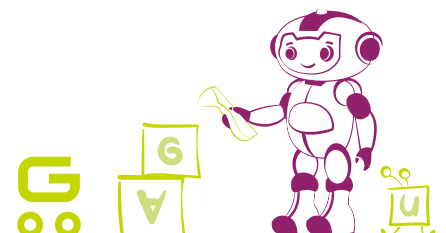

measurement in 1 second

The **Smart Infrared Thermometer AGU SHE10** measures temperature within 1 second with a very high accuracy, allows to use measure temperature on the forehead, in the ear, and to measure object's temperature. One can choose between **C/F temperature scales**.

With the unique **AGU App**, the temperature records are automatically stored, and the temperature history can be tracked any time and shared with a doctor.

agu-baby.com

KEEPS THE TEMPERATURE RECORDS.
