BLENDING

The compact and versatile **AGU Mini Food Processor 3-in-1** for cooking children's dishes can fit in any kitchen and will take on all the key tasks of cooking healthy and tasty food for the little ones... plus even more! The functions of a food steamer and a blender are combined with the possibility of sterilizing bottles and accessories. The device is controlled with just one button, which makes it handy and easy-to-use. Automatic shutdown is provided in the case of water in the tank running out.
