## THE AGU NASAL ASPIRATOR

low noise operation  
< 50 dB

fast efficient  
nose cleansing

safe soft tips  
in various shapes

The **AGU Nasal Aspirator Penguin** is specifically designed for cleansing the nose of an infant or child at home or while traveling. Soft and comfortable aspirator tips (available in both long and short) provide for an individual approach and precise safety of the procedure. The device is easy to handle, it is compact, and is comfortable in use.

The 12 musical tunes in the memory of the device will interest and distract the baby and make the process of cleansing the nose much more comfortable for the child. For your convenience, you can opt to disable the music of the aspirator while the child is sleeping (or at nighttime).

This compact, lightweight and easy-to-use aspirator with its children's tunes will become your reliable assistant at home and while travelling.
