## Froggy

# THE AGU BATH THERMOMETER

quick and accurate water temperature measurement for bathing

color indication of water temperature

Bathing a baby is an important and enjoyable ritual for both parents and babies. With **Thermometer Froggy AGU** you and your baby can focus on pleasure and fun without worrying about the right water temperature.

**Thermometer Froggy AGU** measures the water temperature every 30 sec. It signals with a color indication if the water is ok, or if it is too hot or too cold. To your baby, **Thermometer Froggy AGU** is a funny learning toy, a great companion for bathing and it is absolutely safe. Thanks to the automatic off-switch — while **Thermometer Froggy AGU** is out of the water — the battery will stay alive for ages.
